

LONDON BRIDGE TRADING

#Project_Gold_Label

After countless hours of determining what our loyal customers want us to make, we decided it's time to hand over the reins. Project Gold Label allows YOU to tell US what to make. Maybe it's a LBT-1961A in Mas Grey or a LBT-1476A in Multicam Black. Whatever it is, we will make it; we just need your help.

How it works:

- You send your idea to projectgoldlabel@lbtinc.com
- We send you a Project Gold Label order form along with pricing and the minimum quantity required to do the run
- You reach out to your family, friends, social media, online forums, etc., and send us the order forms when you meet the minimum requirements.
- We do the run and ship your finished product

Run/Order Requirements:

- Essentially this is a product selection with the option of choosing a specific color or camo
- No Modifications – this isn't a design and engineer program, so please do not send us any special requests to add, remove or modify the design of the product in any way.
- We will only start the run when we have received/processed/charged enough order forms to meet the minimum quantity requirements. No exceptions
- The entire run must be paid in full with a credit card or PayPal prior to the start of the run in production.
- You cannot add or make changes to the order once the job has started in production.
- Each product of the Project Gold Label program will receive a classic LBT Gold Label.
- No Returns. No Refunds. No exceptions – we are doing this run for just for you.
- We will notify you when the run is in production along with the projected lead time. The lead time may change due to production workload. Changes in lead times do not qualify as a legitimate reason to cancel an order. Patience is a virtue.

Shipping:

- Free shipping on all orders in the Lower 48 (U.S.) There will be an additional shipping charge for any international shipments.

We look forward to receiving your Project Gold Label requests.
Contact projectgoldlabel@lbtinc.com if you have any questions.
